## INNOVATION.

## 2017 BALL RANGE

GILBERT LEAD THE WAY IN THE TECHNICAL DEVELOPMENT OF THE RUGBY BALL.

Our much acclaimed Match XV ball, as used at RWC 2015, is now used throughout XV-a-side Rugby worldwide. Our specialist Sevens ball, the Synergie XV6 is the ball of choice for the HSBC World Rugby Sevens series. The same ball was used at the Rio 2016 Olympic Rugby Sevens tournament.

With new designs and price points to suit the 2017/18 Gilbert ball range is our most comprehensive ever.

**MULTI-MATRIX 3D GRIP**

Star shape, dual height pimples maximise hand contact with the ball and provides ultimate passing and catching control, whilst maintaining kicking distance and accuracy. Performs in all conditions.

**WORLD RUGBY SPECIFICATIONS**

Conforms to WR ball specifications.

**HYDRATEC**

Technical fabrics and waterproof laminations are combined to enhance the life and performance of the balls.

**SYNERGIE XV6 GRIP**

**TRUFLIGHT™ VALVE**

The patented valve design sits securely in the seam of the ball. Provides improved accuracy and truer, longer flight.

**REACTION LAMINATE**

## MEASURING

### CHEST CIRCUMFERENCE (C)

Measure all the way around - taking the tape approximately 2.5 cm from pit of arm, around the fullest part of the chest. Try to keep the tape level.

### WAIST CIRCUMFERENCE (W)

Measure all the way around- taking the tape around the natural waist - (this is the narrowest part of your waist). Try to keep your tape measure level. Our trousers and shorts are elasticated so there always plenty of room for movement here - if you are confused - Use the hip measurement.

Finding the perfect size isn't always easy. The fit of your clothes depends on many things, including the cut, fabric, styling and even the undergarments you are wearing!

By following our body guide and how to measure guide, we hope to find you the best possible fit. It is always suggested that you measure more than once as your posture changes when you move and sometimes effects the measurement you take.

## GENERAL TIPS:

1. Measure yourself wearing underwear - do not measure over clothing.
2. Stand straight and keep both feet on the floor.
3. Make sure the tape measure is kept level.
4. Ask a friend to help take your measurements - (it's sometimes easier to have help).

Our ranges are designed with layering in mind. If you buy a jacket for your body size, you can be sure you will be able to fit a top and a light sweater underneath.
