BE PART OF

SOMETHING

GREAT

SUSTAINABILITY

To help end plastic waste, adidas is using 100% recycled polyester in products across the Teamwear range.

Discover more about how adidas is continuing to address their overall carbon footprint below:

Primeblue is a high-performance recycled material made in part with Parley Ocean Plastic – upcycled plastic waste, intercepted on remote islands, beaches, coastal communities and shorelines, preventing it from polluting our oceans.

Primegreen is a series of high-performance recycled materials. Garments made with Primegreen are made with 40% recycled content.

adidas has partnered with the **Better Cotton Initiative** to improve cotton farming globally. The Better Cotton Initiative makes global cotton product better for the people who produce it, better for the environment it grows in, and better for the sector's future.

L I M I T S

TECHNOLOGIES

REDEFINE THE WAY YOU TRAIN AND COMPETE WITH ADIDAS TECHNOLOGIES

HEAT.RDY	HEAT.RDY technology keeps you cool and dry when you're competing or training in warm weather. Designed with an ergonomic fit for unlimited movement.
WIND.RDY	WIND.RDY technology repels cold air and light rain to keep you moving in comfort. Engineered to shield you from the wind and cold so you can focus on your performance.
RAIN.RDY	RAIN.RDY technology channels wet weather away to keep you dry and comfortable while protecting you from the wind.
COLD.RDY	COLD.RDY technology keeps warmth locked in for ultimate insulation and comfort. Body heat is trapped while moisture escapes to help you overcome the elements.
AEROREADY	AEROREADY technology wicks away moisture to help you stay cool and dry while training.

ENTRADA 22

TRAIN LIKE PROFESSIONALS, RELAX IN STYLE

Available until early 2026

The new **Entrada 22** Range offers a wide selection of affordable and high quality products, designed for grassroots teams and clubs. Made with 100% recycled polyester, the range doesn't compromise on quality.

Within **Entrada 22** there is both a Core Range and a customisable option. The Core Range offers products designed for on-pitch and off-pitch, including cotton & polyester mixed options for ultimate comfort.

Entrada 22 can be customised in Locker Room, with multiple options to design club-specific teamwear.

TIRO 24

TRUSTED BY THE WORLD'S GREATEST ATHLETES

Available until mid-2025

The **Tiro 24** Range is a premium multi-sport training wear range, designed to enhance your performance on and off pitch.

The range offers two collections including the Competition and Sweat Ranges. The Competition Range is created using innovative technologies including Climalite and Climacool, to help keep you cool and comfortable while training. Climalite fabrics wick sweat away to help you stay cooler for longer and Climacool uses micro ventilation to keep your performance kit light and breathable.

The Sweat Range is designed for comfort off pitch and made with a cotton mix for pure comfort.

Tiro 24 can also be customised in Locker Room, with multiple design options to create club-specific, on pitch teamwear.
